Introduction

SCTS have deployed a new Business Wi-Fi solution for use by justice partners. This network will provide justice partners with improved bandwidth enabling them to connect back to their corporate networks. You may have two devices registered but at this time can only use one device at the same time.

Unlike connecting to Wi-Fi at home, Business Wi-Fi connects using a Captive Portal, which is a landing page asking the user to provide more info to be able to sign in. This means that there are a few more steps before you can get online using a captive portal Wi-Fi.

Before you start – Signing up for Usage

To register to use the new Business Wi-Fi solution, justice partners will need to contact the appropriate contact. The contacts for each justice partner for registration are captured in the table below:

User Group	Contact Details
Faculty of Advocates	servicedesk@Advocates.org.uk
Law Society	member.registration@lawscot.org.uk
SLAB	McGeePa@slab.org.uk
Victim Support Scotland	Stephen.Wheeler@victimsupportsco.org.uk
SCRA	itservicedesk@scra.gov.uk
CJSW	Helpdesk@scotcourts.gov.uk
Litigants and Social Security Workers	Clerk of Court

You will then be provided with an email containing your portal username and password.

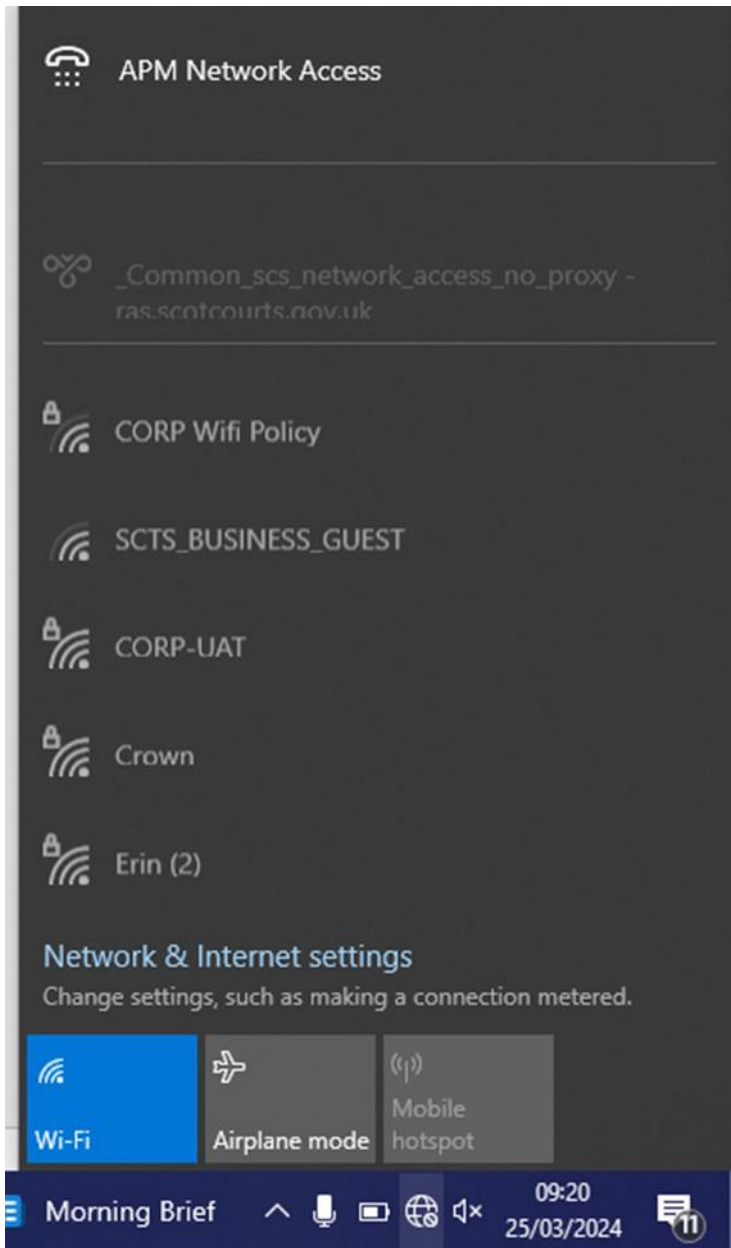

For Litigants and our colleagues at Social security – access can be requested via the clerk of court ahead of your hearing date.

Connecting to the SCTS Business Wi-Fi

Select the Wi-Fi symbol found in your system tray on the bottom right hand side of the screen (next to the clock).

This will open up a list of all available wireless networks.

Select **SCTS_BUSINESS_GUEST** then click **Connect**.

The SCTS sign in window appears.

Sign On SCTS_BUSINESS_GUEST
Welcome to the SCTS Business Guest Portal. Sign on with the username and password provided to you, for access to the SSID SCTS_BUSINESS_GUEST

Username:

Password:

When logging in for the first time enter in the username and password provided to you from the registration email and select the 'Sign On' button.

After the first time you must enter in the username provided and the password you chose as part of step 5 of the initial log in journey

Sign On SCTS_BUSINESS_GUEST
Welcome to the SCTS Business Guest Portal. Sign on with the username and password provided to you, for access to the SSID SCTS_BUSINESS_GUEST

Username:

Password:

On the following page the Acceptable Use Policy will appear where you must select the 'Accept' button to continue. If you do not accept this policy you will be unable to use the network.

Acceptable Use Policy
Please read the Acceptable Use Policy

Access to Guest Wifi - Acceptable Use Policy

The Scottish Courts and Tribunals Service (SCTS) provide a guest WiFi Internet service which is available for users who have a compatible device, SCTS sponsor and account. Usage of this service is governed by the SCTS Acceptable Use Policy and by logging onto the network, the user is deemed to have accepted this policy:

1) Accounts will be enabled for a fixed time period which can vary from 1 day to 12 months, subject to requirements but shall not exceed 12 months at which point it will expire. The account can then be extended for a

During your first log-in journey you will be asked to create a new password. Once Current and New password entered press the 'Submit' button to continue.

SCTS Guest WiFi

Access to the internet for authorised SCTS guest users using their personal devices is currently available across the majority of the SCTS estate.

The bandwidth for authorised guest users is balanced with the need to keep bandwidth free for the business and operations of the courts – for example, links to Remote Jury Centres and use of WebEx for virtual hearings. Therefore, the authorised guest users Wi-Fi service is designed to provide standard internet connectivity only.

This still enables authorised users on our premises to:

- browse the internet; and
- check email via a web browser, assuming the service provider allows this.

Some email client applications can be accessed normally through the service, whilst others may require additional features that are not available on the SCTS guest Wi-Fi.

The wireless networks across SCTS have been made as secure as possible. Some devices may regard the SCTS guest Wi-Fi service as untrusted as it is not listed within the device security settings as trusted. This is called 'certification' and some devices do not recognise the certificate presented by SCTS during the login process. The service is no less secure to devices that exhibit this message or to those that do not.

FAQs on how to use the SCTS authorised guest user Wi-Fi are available [here](#)

Click **Continue** to complete your connection to the Guest network.

Continue

The final page you will be displayed is confirming you have successfully connected

The screenshot shows a browser window with the URL https://east.guestwifi.scotcourts.gov.uk:8443/portal/Continue.action?from=POST_ACCESS_BANNER. The page header includes the Scottish Courts and Tribunals Service logo and the 'rpurvis' user name. A central message box displays the text: "Success - you are now connected to the Guest network".

You are now connected to **SCTS_BUSINESS_GUEST**. You can test this by browsing to a web page or using any application such as Teams.

Connecting to the Captive Portal – Future Use

If you are connecting again using the same device within 24 hours, you will not need to re-enter your username and password. You are allowed up to two devices in total and currently

only one can be connected at one time. The network will connect you automatically. If it has been longer than 24 hours since you last connected you will need to authenticate.

Troubleshooting & Support

The SCTS_BUSINESS_GUEST Wi-Fi is offered by the court. If you can't see the network, or experience slow speeds or drop-outs when using the Wi-Fi, the Sheriff Clerk's office will be able to let you know if there are any known issues affecting the service.

If there are no known issues, you are a registered user and connected to the network and experiencing slow speeds or drop-outs then please contact the SCTS helpdesk on 0131 444 3333 and select option 4.

For anything else, please contact your local support team:
