Case Description

This is a petition for judicial review by Robert Logan against a decision of North Lanarkshire Council dated 28 March 2024 making an exclusion order under s. 117 (1) of the Civic Government (Scotland) Act 1982.

The decision relates to the petitioner's prohibition to enter North Lanarkshire Council's burial grounds for a period of one year following a complaint by the respondent which related to the manner in which work was carried out on Lair G2164 and, in particular, the use of collaring, on the basis that that: (i) Stewarton Memorials had not observed the respondent's booking requirement; (ii) had carried out work without permission; and (iii) the use of collaring did not comply with NAMM's Code of Working Practice.
