

Quarterly Fines Report 27 - Quarter 2 2015/16

An Official Statistics Publication for Scotland

Fines and financial penalties imposed or registered up to 30 September 2015, as at 11 January 2016

This Report presents information on fines and other financial penalties as at 11 January 2016. The report covers the financial years - 2012/13, 2013/14, 2014/15 and 2015/16.

Sheriff Court Fines Summary

Reporting on the most recent full three year period, as at 11 January 2016, 87% of the value of Sheriff Court fines imposed over the period 1 April 2012 to 31 March 2015 has either been paid or is on track to be paid through instalments. This is on par compared with the value paid or on track to be paid through instalments for the same period as at 11 October 2015.

Of the number of fines imposed over these three financial years, 78% have been fully paid as at 11 January 2016. This is an increase of 5 percentage points on these fines fully paid for the same period as at 11 October 2015.

As at 11 January 2016, 79% of the value of Sheriff Court fines imposed over the period 1 April 2015 to 30 September 2015 has either been paid fully or is on track to be paid through instalments. For this same period, the number of fines fully paid is 42%.

For fines imposed in 2014/15, 66% of the value has been paid as at 11 January 2016. This is an increase of 5 percentage points compared with 61% of the value paid as at 11 October 2015.

For fines imposed in 2013/14, 87% of the value has been paid as at 11 January 2016. This is an increase of 2 percentage point compared with 85% of the value paid as at 11 October 2015.

For fines imposed in 2012/13, 89% of the value has been paid as at 11 January 2016. This is an increase of 1 percentage point compared with 88% of the value paid as at 11 October 2015.

Justice of the Peace (JP) Court Fines Summary

For JP Court Fines imposed in the financial year 2015/16 for the period 1 April 2015 to 30 September 2015, 81% of the value has been paid or is on track to be paid by instalments as at 11 January 2016. For this same period, the number of fines fully paid stands at 60%.

For JP Court Fines imposed in the financial year 2014/15, 79% of the value has been paid as at 11 January 2016. For this same period, the number of fines fully paid stands at 74%.

For JP Court Fines imposed in the financial year 2013/14, 86% of the value has been paid as at 11 January 2016. For this same period, the number of fines fully paid stands at 83%.

For JP Court Fines imposed in the financial year 2012/13, 90% of the value has been paid or is on track to be paid by instalments as at 11 January 2016. This is an increase of 1 percentage point compared with 89% of the value paid as at 11 October 2015.

Of the number of JP Court Fines imposed in 2012/13, 86% have been fully paid as at 11 January 2016. This is an increase of 2 percentage point on the rate as at 11 October 2015.

Fiscal Direct Penalties Summary

For Fiscal direct penalties registered in 2015/16 for the period 1 April 2015 to 30 September 2015, 62% of the value has been paid or is on track to be paid by instalments as at 11 January 2016. For this same period, the number of fines fully paid stands at 30%.

For Fiscal direct penalties registered in 2014/15, 55% of the value has been paid as at 11 January 2016. This is an increase of 7 percentage points compared with 48% of the value paid as at 11 October 2015.

For the Fiscal direct penalties registered in 2013/14, 68% of the value has been paid as at 11 January 2016. This is an increase of 4 percentage points compared with 64% of the value paid as at 11 October 2015.

For Fiscal direct penalties registered in 2012/13, 76% of the value has been paid or is on track to be paid by instalments as at 11 January 2016. This is an increase of 1 percentage point on the rate as at 11 October 2015.

Of the number of Fiscal direct penalties registered in 2012/13, 69% have been fully paid as at 11 January 2016. This is an increase of 4 percentage points on the rate as at 11 October 2015.

Police Antisocial Behaviour Fixed Penalties Summary

For Police Antisocial Behaviour Fixed Penalties registered in 2015/16 for the period 1 April 2015 to 30 September 2015, 55% of the value has been paid or is on track to be paid by instalments as at 11 January 2016. For the same period, the number of fines fully paid stands at 59%.

For Police Antisocial Behaviour Fixed Penalties registered in 2014/15, 62% of the value has been paid as at 11 January 2016. This is an increase of 3 percentage points compared with 59% of the value paid as at 11 October 2015.

For Police Antisocial Behaviour Fixed Penalties registered in 2013/14, 71% of the value has been paid as at 11 January 2016. This is an increase of 3 percentage points compared with 68% of the value paid as at 11 October 2015.

For Police Antisocial Behaviour Fixed Penalties registered in 2012/13, 76% of the value has been paid or is on track to be paid by instalments as at 11 January 2016. This is on par with 76% of the value which has been paid or is on track to be paid by instalments as at 11 October 2015.

Of the number of penalties registered in 2012/13 78% have been fully paid as at 11 January 2016. This is an increase of 3 percentage points on the previous rate of 75% of the number of fines fully paid as at 11 October 2015.

Enforcement Action

All outstanding fines and financial penalties for which SCTS is responsible are being pursued. Enhanced tracing facilities make it easier to use the full range of enforcement actions which include benefit deductions, freezing bank accounts, arresting wages and seizing cars. The information included in this report relates to fines collection up to 11 January 2016, although for some enforcement actions there may be a time lag between the enforcement action being applied and subsequent payments being received.

Other enforcement measures include using tracing facilities to ensure that defaulters are identified quickly and to speed up enforcement action. The tracing facilities provide information on aliases, employment history, bank accounts, and credit cards. Sheriff Officers also help to target persistent defaulters who are ignoring payment demands. Deducting payments from benefits is now an automated process and a new online payment facility is increasing electronic payments. All these measures ensure that offenders cannot avoid the penalty and are encouraged to make prompt payment.

Summary of enforcement Action (covering Sheriff Court fines, Justice of the Peace (JP) Court fines, Fiscal penalties and Police Antisocial Behaviour Fixed Penalties:

- At 11 January 2016 426,682 enforcement orders had been granted by the courts (26,730 of these granted within the 3 months prior to 11 January 2016). This is the initial step required to pursue enforcement action.
- Fines Enforcement Officers have agreed revised payment terms in 99,536 accounts (over 6,540 of these agreed within the 3 months prior to 11 January 2016), helping individuals maintain payments.
- Over 105,670 benefit deduction orders have been granted, and 22,507 earnings arrestment orders have been issued (including 9,129 granted and 1,929 issued respectively within the 3 months prior to 11 January 2016).
- Where people are unable to pay, courts have imposed supervised attendance orders on 954 people as an alternative punishment (where 14 of these were imposed within the 3 months prior to 11 January 2016).

An Enforcement Order is an order made by the court setting out the payment rate of a fine, explaining what will happen if the fine isn't paid, and giving the Fines Enforcement Officer (FEO) the power to take action.

A Deduction from Benefits Order is an order made by the court which allows the Department of Work and Pensions (DWP) to deduct money from an offender's benefits and pay it directly towards their fine.

An Earnings Arrestment Order is an order made by the court instructing an employer to make regular deductions from an employee's wages which are paid directly towards the employee's fine.

A Supervised Attendance Order is an order made by the Court for Sheriff or JP Court Fines as an alternative to imprisonment if the offender defaults in payment of their fine. The offender must attend a place of supervision and carry out instructions given by their Supervising Officer.

Notes:

- 1. Figures include fines against both persons and companies. The figures relate to the value of fine accounts. An account may contain more than one fine if an offender receives more than one fine on a single day.
- 2. Includes Sheriff Court Fines, Compensation Orders and Confiscation Orders.
- 3. Includes JP Court Fines and Compensation Orders.
- 4. Includes Fiscal Fines, Fiscal Compensation Offers and the monetary amount of Fiscal Combined Offers.
- 5. The Police Anti-social Behaviour Penalty figures include Police Fines and those that, if unpaid, become Registered Fines. "Total Value to be paid" is consequently the sum of Police Fines paid (£40 each) and Registered Fines (£60 each), minus discharges. The payment percentages relate to proportions of "Total Value to be Paid". "Total Value to be Paid" and "Value Paid To Date" also sum payments received from both Police Fines and Registered Fines.
- 6. This figure is the total fines imposed minus any discharges. Fines may be discharged for a number of reasons. These include a sheriff or JP imposed alternative sentence, imprisonment or death of a defaulter. Discharges include both full discharges and fines which have been discharged following part-payment. The values of unpaid £40 Police Fines are discharged when they become £60 Registered Fines to avoid double counting.
- 7. Percentages are presented as a proportion of "Total Value to be Paid".

Other notes: Values and percentages may not add up to their constituent subtotals and totals due to rounding. Values of £0.0m in the table denote values of less than £50,000 that have been rounded down.

Data Tables

This link QFR 27 Tables Tables provides an Excel workbook showing the value and number tables as at 11 January 2016.

Background

This is the latest in a series of quarterly reports on fines collection. Previous quarterly reports can be viewed within the 'Statistics' section of webpage http://www.scotcourts.gov.uk/about-the-scottish-court-service/reports-data.

Revisions and corrections

None to report.

Fines Collection Process

The Scottish Courts and Tribunals Service (SCTS) is responsible for collecting Sheriff Court Fines, Justice of the Peace Court Fines, Fiscal penalties and Antisocial Behaviour Fixed Penalty Notices.

Court imposed fines are either due for payment immediately or by agreed terms at the point of imposition. The majority of fines imposed include an enforcement order which tells the offender how the fine should be paid and what will happen if it is not paid. The enforcement order allows the Fines Enforcement Officer to implement a range of sanctions including deduction from benefit, arrestment of earnings and bank accounts and seizure of vehicles.

Fiscal direct penalties are issued by the Crown Office and Procurator Fiscal Service (COPFS), in the form of a conditional offer. The alleged offender may refuse the offer within 28 days in recognition that prosecution will be the next likely stage. Alternatively, the alleged offender can accept the offer by making payment. If the conditional offer is ignored and payment not made, the responsibility for enforcement passes to the SCTS Fines Enforcement Officer, who will seek an enforcement order from the court.

Antisocial Behaviour Fixed Penalty Notices are issued by each police force in Scotland and the money is due within 28 days and is collected by the SCTS. If the penalty is not paid within 28 days, the amount due is increased by 50 per cent and the penalty is converted to a registered fine with responsibility for enforcement passing to the SCTS Fines Enforcement Officers, who will seek an enforcement order from the court. Figures for value and number of Police Antisocial Behaviour Fixed Penalty Notices paid therefore include both payments made to original police fines and payments made to registered fines.

Money collected by the SCTS for criminalised parking fines is subject to different procedures and is not covered in this publication.

Shaping Scotland's Court Services

As part of <u>Shaping Scotland's Court Services</u> work, a number of courts closed with relevant live business transferring to receiving courts.

For fines accounts, this has meant the transfer only of accounts requiring further payments or action, as opposed to transferring all accounts including those fully paid and closed requiring no action or payment. This may have an impact on the reported fine collection rates of the receiving courts but will have no impact on Sheriffdom or National rates.

Footnotes have been added to all background tables to indicate closing and receiving courts.

Closed Court	Receiving Court		
End of November 2013			
Annan JP Court	Dumfries JP Court		
Cumbernauld JP Court	Coatbridge JP Court		
Dornoch Sheriff and JP Court	Tain Sheriff and JP Court

End of January 2015			
Dingwall Sheriff and JP Court	Inverness Sheriff and JP Court		
Duns Sheriff and JP Court	Jedburgh Sheriff and JP Court		
Haddington Sheriff and JP Court	Edinburgh Sheriff and JP Court		
Peebles Sheriff and JP Court	Selkirk Sheriff and JP Court		

Guidance on definitions and data

The data source is a management information data extract from COP2 (the SCTS operational system used in all Sheriff and Justice of the Peace Courts).

Data may subsequently change over time due to additions or modifications to cases on COP2.

The 'as at' date used throughout the report is the date the fines data is extracted and used to calculate totals for arrears, payments and discharges made, etc.

Figures on fines and other financial penalties are presented on a three financial-year basis to reflect payment cycles and enforcement action taken. This recognises that penalties are levied throughout each year and that arranged instalment payments or enforcement action can mean some may take two or more financial years to be fully paid.

Payment rates for recent years will therefore initially be lower than those for previous years. Estimates of in-year payment figures indicate a broadly consistent collection pattern over time.

Collection rates for Police Antisocial Behaviour Fixed Penalties cover both payments for the Police Fixed Penalty within the initial 28 day period and payments made once the unpaid Fixed Penalty becomes a registered fine with a value 50% higher than the original fixed penalty. Registered fines are enforced by the SCTS. Explanation of categories used in this report:

Value of Fines Imposed	The value of fines imposed within the periods specified.
Value Discharged	This is the value of fines which have been discharged
	(the value which is <u>not</u> now payable). This can arise in
	a variety of ways for example where a fine is discharged
	by a subsequent penalty of a Supervised Attendance
	Order or Imprisonment, or where the accused dies.
	Also for Fiscal Penalties it covers instances where the
	Fiscal Penalty is refused, recalled or withdrawn.
Total Value to be Paid	This is the total value of fines imposed minus the value
	discharged, and so is the total value of fines which are
	payable.
Value of Fines Paid to	This is the total amount which has been paid to date,
Date	and will relate to both fully-paid and part-paid fines.
Value with Payments On	This is the total amount which has not been paid as yet,
Track	but for which future instalments are on track to be paid
	(the fine is not in arrears).
Value in Arrears	This is the total amount which has not been paid as yet
	and for which the fine is in arrears. A fine is in arrears if
	a payment date has been missed.
Number of Fines	The number of fines imposed within the periods
Imposed	specified after any court discharges have been
N I B' . I I	deducted.
Number Discharged	This is the number of fines which have been discharged
	(i.e. the fine is <u>not</u> now payable). This can arise in a
	variety of ways, for example where a fine is discharged
	by a subsequent penalty of a Supervised Attendance Order or Imprisonment, or where the accused dies.
	Also, for Fiscal Penalties, it covers instances where the
	Fiscal Penalty is refused, recalled or withdrawn.
Number to be Paid	This is the total number of fines imposed minus the
	number discharged, and so is the total number of fines
	which are payable.
Number Fully Paid	This is the number of fines which have been fully paid.
Number With Payments	This is the number of fines which are being paid in
On Track	instalments and are not in arrears.
Number With Payments	This is the number of fines which are being paid in
In Arrears	instalments and are currently in arrears.
Number With No	This is the number of fines which have had no payment
Payments Received	received and are currently in arrears.

Notes: The 'value' categories do not directly correspond to the 'number' categories. This is because a single fine can have a portion of its value which has been paid and a portion which has not. In this instance, the values would be split between two value categories, however, the fine itself would only be counted once within a number category.

The discharge categories cover situations where there has been no payment prior to discharge, <u>and</u> also instances where there has been a part-payment prior to discharge.
